

WELCOME TO DULUXGROUP

DuluxGroup is home to a remarkable portfolio that includes some of New Zealand's most recognised and trusted brands.

DuluxGroup

ABOUT DULUXGROUP

DuluxGroup has been part of the New Zealand paint and coatings industry since 1939, celebrating 80 years of manufacturing in New Zealand in 2019. Today, DuluxGroup products continue to protect, maintain and enhance the spaces and places in which all New Zealanders live, work and play.

DuluxGroup's portfolio houses a world of innovation, expertise and product solutions. From household rooms transformed by colour and texture, to the latest in garage door design and technology, and the industrial coatings that protect landmark infrastructure along with the construction chemicals that reinforce them; DuluxGroup products are at work.

At DuluxGroup, our fundamental point of difference is the quality of our products, in particular our Dulux paints. Our DuluxGroup chemists – based in our Wellington, Auckland and Melbourne Innovation Centres – design and develop unique and exclusive resins that match selected pigments.

With an extensive range of products, and more than 4,600 colours in the Dulux World of Colour® and Dulux Colours of New Zealand® ranges, we have the perfect product and colour for every project.

Porter's Original Paints® and specialty finishes have been creating unrivalled finishes for 35 years.

Intergrain® products have been designed to protect the natural beauty of timber and to meet the demands of architects and landscape architects.

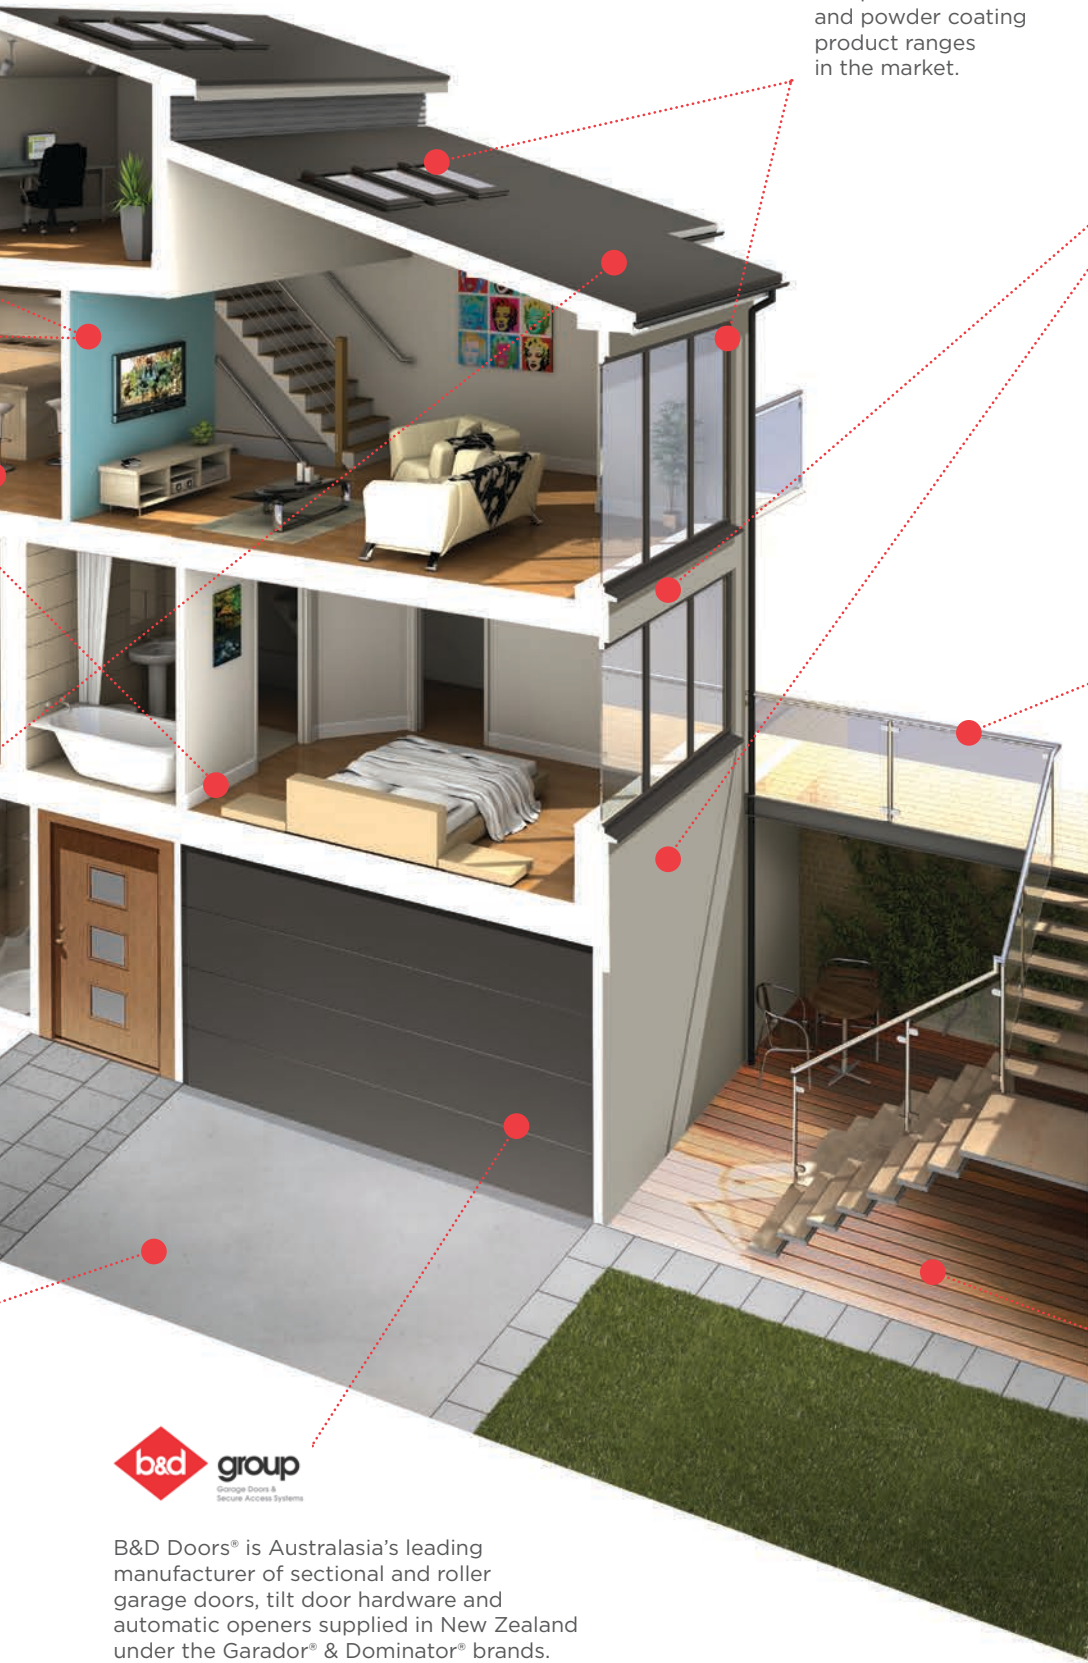

Selleys® provides quality sealants and adhesives for use around the home, including a specialist range of timber flooring adhesives and coloured roof pointing compounds.

Concrete Plus® is a leading manufacturer and supplier of products and equipment to the New Zealand concrete and construction markets.

Dulux Powder & Industrial Coatings™ offers one of the most comprehensive colour and powder coating product ranges in the market.

Dulux AcraTex® has the performance texture coating solution to deliver long-term protection for masonry, concrete or lightweight cladding substrates.

Dulux Protective Coatings™ is a range of specialist coatings products designed for long term durability of steel and concrete. For passive fire protection, the range of Fireshield intumescent products for steel and interior timber is available.

Cabot's® timber finishes are a comprehensive range of stains, varnishes, clear finishes and oils for the preservation and beautification of timber around residential and commercial spaces.

B&D Doors® is Australasia's leading manufacturer of sectional and roller garage doors, tilt door hardware and automatic openers supplied in New Zealand under the Garador® & Dominator® brands.

WE'RE HERE TO HELP

Whatever project you're working on, whether you want help writing a specification, developing a colour scheme, or the total package, our team of business development, trade and commercial representatives have the experience and expertise to help you achieve the best possible results for your customer.

DuluxGroup understands the exacting standards required by industry professionals so we ensure our brands can deliver to those standards every time.

Dulux Commercial Services:

- On-site inspections to determine project scope and recommendations
- Technical advice and specifications
- Colour advice and colour scheme development
- Recommendations for the tendering process
- Development of written warranties where Dulux systems are used
- Peer review of architectural specifications
- Referrals to approved applicators including Dulux Accredited Painters and intumescent or specialty coating specialists
- Coordination with other DuluxGroup business units
