

OPEN TRENCH REWARD

Earn **\$400*** for every
open trench natural
gas connection.

Firstgas

*T&Cs apply

Connecting to natural gas is easy and can be done in line with your schedule and site works. To ensure a seamless connection, we can use your help - and we're willing to reward you for it. Provide us with an open trench from the boundary to the gas meter location and **we'll pay you \$400** plus GST.

Claiming your open trench rewards

Call **07 850 6942**, and let us know you will have an open trench or are providing a duct.

Schedule a time for us to visit the site and install the pipe. We require a minimum of two business days notice for an installation.

Reward payments will be made on a quarterly basis.

Some things to know

- Available to gas-fitters and builders with an open trench.
- Each connecting property will qualify for one \$400 reward (one payment per meter installed).
- Rewards are given to the person who initiates the original connection application received by Firstgas.
- The trench must extend from the property boundary to the gas meter position.
- The trench must meet Firstgas standards of a minimum of 450mm top cover and 150mm separation from any other services and less than 80 meters long. See www.firstgas.co.nz/dyot for full specifications.
- Firstgas will install pipe within the trench, shade the pipe and lay warning tape. We will not backfill the trench.
- To install ducting rather than keep the trench open please let us know when you call. Firstgas will supply a minimum 32mm yellow duct and warning tape for you to install. The minimum top cover and separation clearance still apply.
- The property must be installing a natural gas appliance for hot water and/or home heating to receive an open trench reward.
- For more information visit www.firstgas.co.nz/dyot.
