Equipment for

On the winner's podium with uvex – in sports and in the workplace!

All around the world, athletes wearing uvex products are up there among the champions. These athletes need the very best equipment to conquer everyday challenges while keeping their eyes firmly fixed on the competition.

As the world's most successful provider of equipment for top professional athletes, uvex demonstrates every day how crucial having the right equipment is for success.

Just like the sporting world, working life constantly poses tough challenges for individuals and their equipment. To deliver optimum performance, individuals must be able to rely on their equipment, be perfectly protected – and feel cool.

This allows them to become a **“Winner at work”**.

Superior tec

hnology

X-tended eye shield

Optimum eye protection for every situation:

The soft components, which are fixed directly to the lens, provide dependable protection from dust and water. The innovative uvex X-tended eye shield fits perfectly on the wearer's face, ensuring a high level of wearer comfort and 100% protection.

uvex pheos cx2

1 Comfortable and slip resistant

The soft bridge and nose pieces, which are directly moulded to the lens, as well as the X-Twist technology, ensure optimum wearer comfort and a secure fit.

2 Scratch resistant and anti-fog

Thanks to uvex supravision excellence coating technology, the uvex pheos cx2 is highly scratch resistant and permanently anti-fog on the inside. Additionally, the spectacles offer 100% protection against UV 400.

3 Optimum protection of the eye area

The duo-spherical lens with a uvex X-tended eye shield features additional curvature on the upper edge for safe and reliable eye-brow protection.

4 Smooth opening mechanism

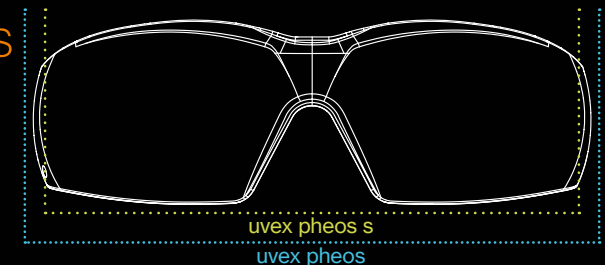

The metal-free hinges fold effortlessly. Innovative materials ensure consistently smooth movement of the side arms.

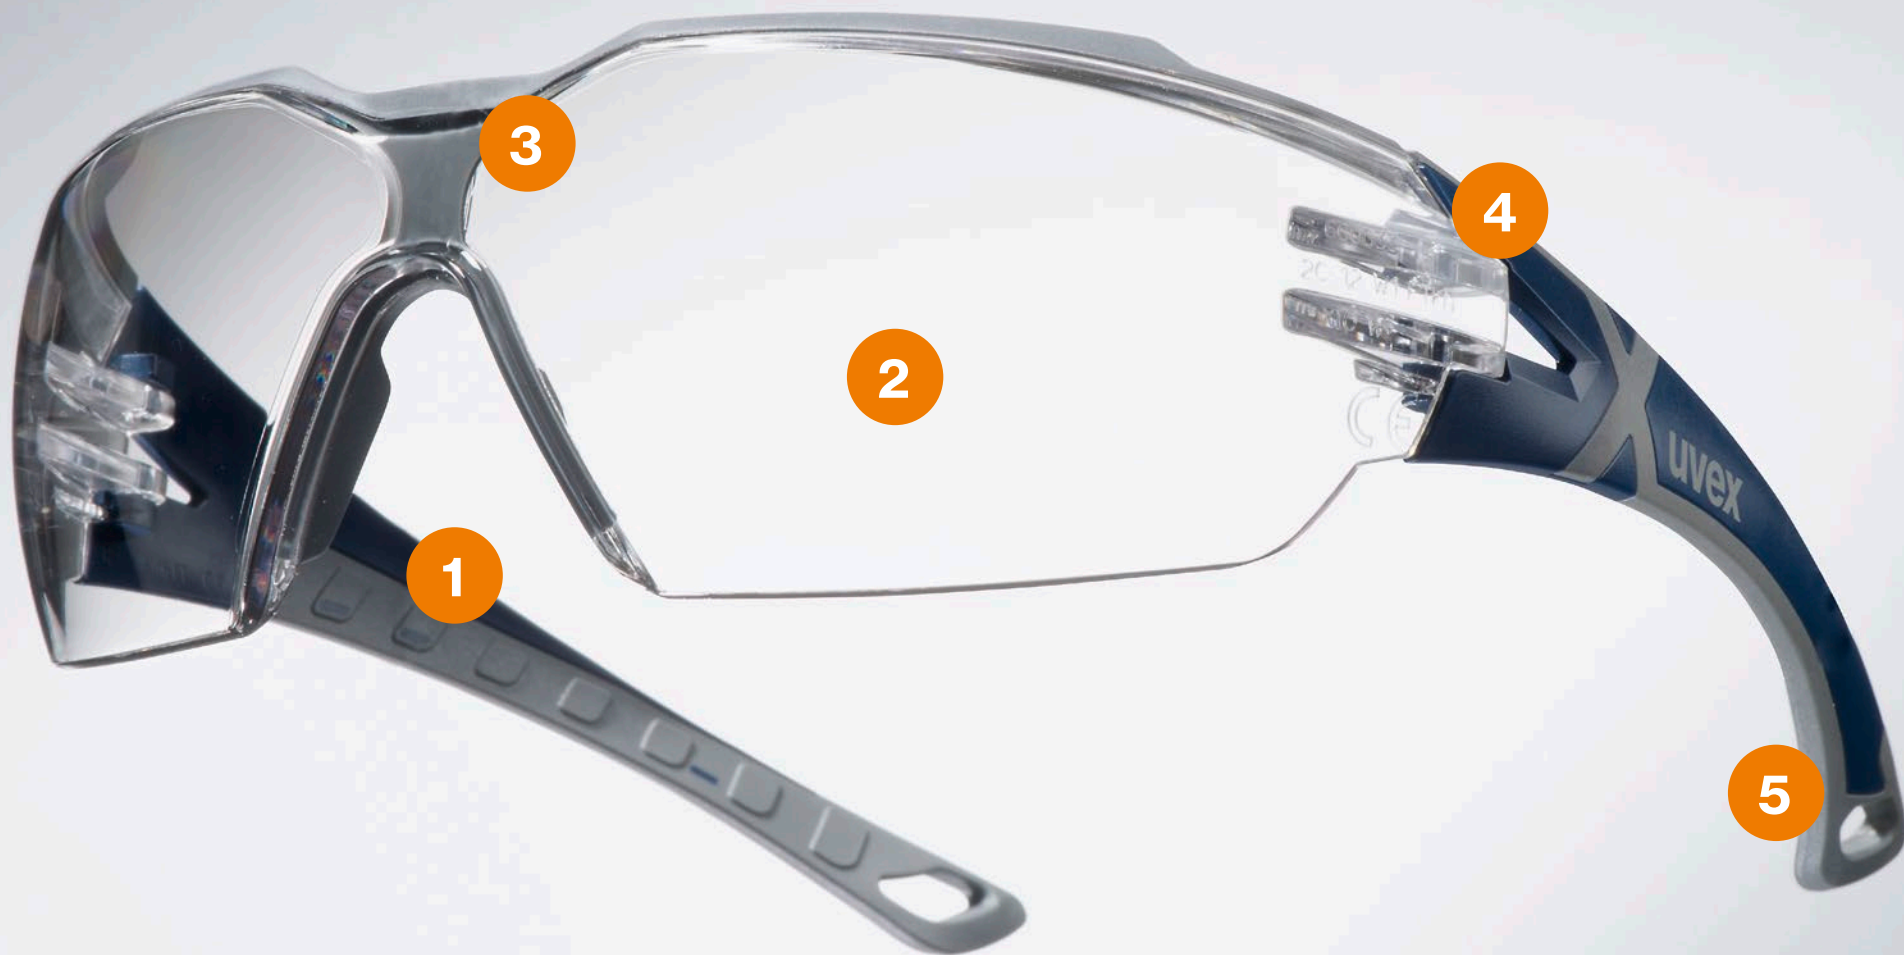

5 Excellent ventilation

The sophisticated side arm design provides exceptional ventilation and helps to improve the climate around the eye.

Measurements

The dimensions of the uvex pheos cx2 are between those of the uvex pheos and uvex pheos s.

Successful in all disci

Leak test

Convincing performance: When sprayed directly with a reagent, the X-tended eye shield did not let a single droplet through – whether sprayed from the front (as per the standard),

from above or laterally (in accordance with uvex procedures). This confirms that the uvex pheos cx2 provides excellent protection when working overhead.

A close fit

Ergonomic fit on the face: The distance between the forehead and spectacles has been measured at four different points, confirming a snug and secure fit. Here also the uvex pheos cx2 gains points.

plines

uvex pheos: a comparison

The new generation is resetting the standard: The innovative uvex pheos cx2 spectacles are even more advanced than the current high performance pheos and pheos s models.

1. uvex pheos cx2	+++	1.5
2. uvex pheos s	++	3.25
3. uvex pheos	+	4.75

Perfect curvat

ure

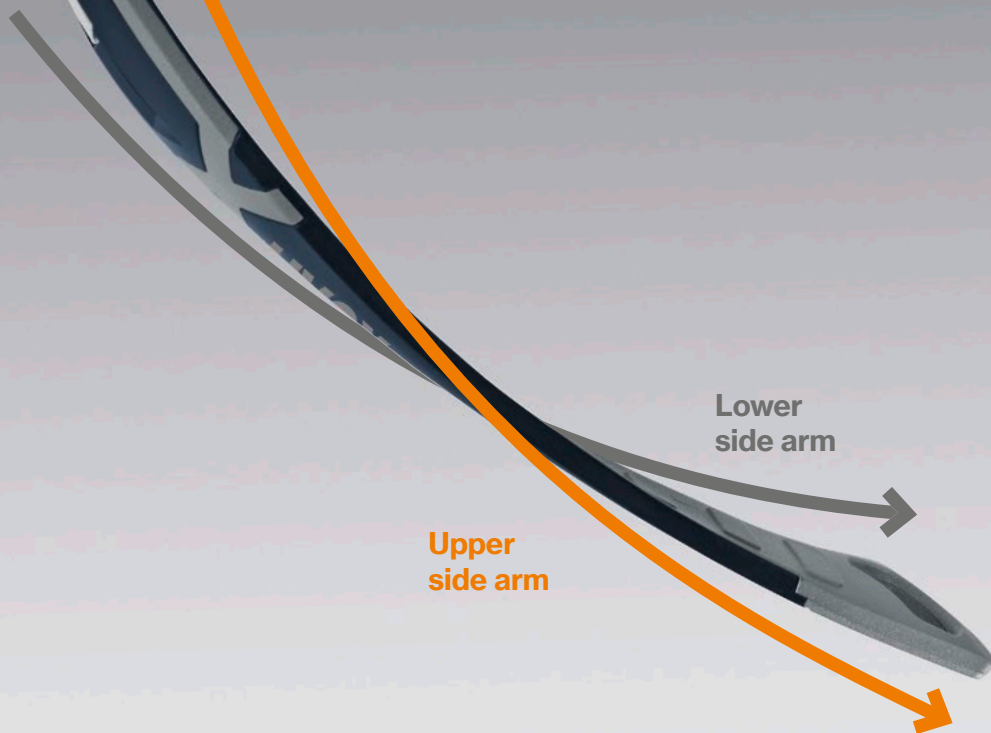

X-Twist technology

No matter how the head is moved:

Featuring X-Twist technology, the uvex pheos cx2 is suitable for all situations enabling completely free head movement.

The light spring effect of the side arm ensures the spectacles fit individual head shapes ergonomically combining a secure fit with maximum wearer comfort.
